

# Northwestern Medicine Delnor Hospital, Geneva

SENATE DISTRICT 25 HOUSE DISTRICT 50

## INFECTION PREVENTION

### Identifying and treating sepsis early to save lives

Our multidisciplinary approach to early sepsis identification and treatment includes:

- ▶ Pre-hospital sepsis identification by EMS and skilled nursing facilities
- ▶ Education for hospital staff
- ▶ Sepsis alert and multidisciplinary team response
- ▶ Real-time feedback to clinicians

#### Patient, Family & Community Impact

Improves  
quality of care

Improves  
patient outcomes

Decreases  
mortality

#### Saving Lives, Saving Dollars

Launch date: January 2015
