PATIENT SAFETY

Reducing falls with injury through post-fall huddles

A multidisciplinary team implemented interventions to assess, improve, maintain and eliminate variation through:

- ▶ Identification of high-risk factors on admission
- ▶ Early assessment and documentation
- ▶ Proper use of equipment
- ▶ Use of low beds
- ▶ Best practices in patient-family engagement on equipment use
- ▶ Post-fall huddles
- ▶ Ongoing analysis

Patient, Family & Community Impact

Improves
patient safety

Increases patient and
family engagement

Increases patient
satisfaction

Saving Lives, Saving Dollars
